ABOUT

Hey there! I'm Cheng Hao "Lawrence" Huang, and I'm all about the world of sound design, particularly in post-production and music production; therefore the works on my page are mainly sound effects editing and music production. However, hold onto your hats, because I'm not stopping there! While I'm totally into sound effects editing, I'm also eager to keep expanding my skill set in post-production. So yeah, you can bet I'll be diving into all sorts of editing adventures while still keeping my focus on sound effects. Bring on the next challenge!
